

DOUGH  
DIVIDERS

# B 300 D Dough Divider

The B 300 D is a versatile and highly weight accurate multi pocket dough divider. A wide variety of dough types can be processed in a dough friendly way.

## WP Haton the leading brand in dough processing since 1949

WP Haton produces the most advanced and best bread make-up machines in the world contributing to high weight accuracy, excellent structure and most friendly and careful handling of the dough without compromising on high speed, consistency and constant quality on every piece of the dough piece produced.

- Automated dough processing systems for virtually all types of bread
- Tailormade line concepts in dough processing equipment
- Unique system of modularization
- BreadLab: the experience center where bakers from all over the world can test our equipment with their own ingredients

# B 300 D Dough Divider

### Highlights

- Long lifespan because of wear-resistant materials
- Dough friendly dividing at high capacity
- Multiple pockets possible
- Large weight range and high weight precision
- Solid construction of drive unit and dividing system
- High hourly capacity
- Low oil consumption
- Easy access for cleaning and maintenance

## B 300 D

The B 300 D is a multi pocket dough divider. The portioning mechanism of the B 300 D is dough friendly and highly weight accurate. It is designed in such a way to make it robust, and at the same time easy to operate and maintain. A wide range of dough weights can be processed on the B 300 D dough divider: ranging from soft to stiff dough, as well as wheat dough and combined rye dough types.

## Specifications

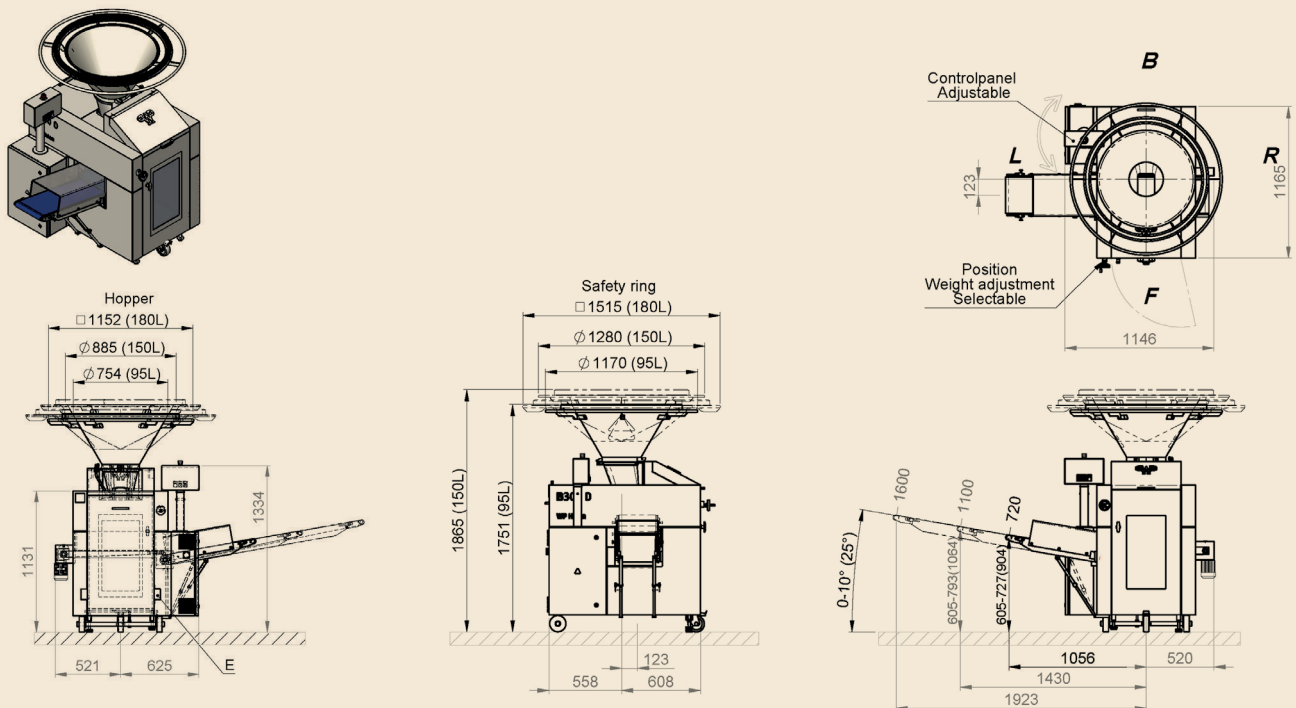

- Multiple pocket machine
- Dividing unit with automatic oiling on discharge conveyor and a 5 litres oil tank
- Mechanical discharge flap with synthetic scraper
- Hopper stainless steel 95 litres, including safety ring with pressure sensitive edge
- Main piston, dividing chamber and hopper base: wear-resistant Ni-Resist
- Hopper base with Teflon coating
- Measuring piston in food safe bronze
- Knife made of hardened stainless steel
- Discharge conveyor cross L = 720 mm

\* Capacity and weight range depending on dough consistency

## Options

- Hinged hopper stainless steel 150 or 180 litres, Teflon coated
- Oiling on hopper including oil shortage signalisation
- PLC with touch panel possibilities for: pre-set counter, recipe control, frequency inverter and/or Servo weight adjustment
- Discharge conveyor cross, 1100 or 1600 mm
- Oiling on conveyor belt and/or measuring piston
- Drag-net on discharge conveyor
- Mechanical flour duster
- Pneumatical discharge flap with synthetic scraper
- Frame increased by 100 mm
- Customer specific Blue Box
